

MOHAMMAD NASSER

Frontend Web Developer

Kuwait City, Kuwait • +965 50524199 • eng_mnmf@hotmail.com • linkedin.com/in/mdfarag

PROFESSIONAL SUMMARY

Frontend Web Developer with 7 years of experience building and maintaining responsive, high-quality e-commerce websites. Experienced in translating Figma and Adobe XD designs into pixel-perfect, mobile-first interfaces and developing reusable UI components and brand storefronts. Strong skills in HTML, CSS3, JavaScript (ES6), ReactJS, Next.js, Tailwind CSS, and RESTful APIs, with a focus on scalable, component-based frontend architecture.

TECHNICAL SKILLS

Languages & Styling: HTML5, CSS3 / SCSS, JavaScript (ES6)

Frameworks & Libraries: ReactJS, Next.js, Context API, TanStack Query, Tailwind CSS, jQuery, Bootstrap

API & Data: RESTful APIs, Fetch API, Axios, JSON

Tools & Version Control: Git / GitHub, npm, Chrome DevTools

Design & Practices: Figma, Adobe XD, Responsive Web Design, Mobile-First Development, Cross-Browser Testing

Backend Basics: Node.js, Express.js, RESTful API Development

EXPERIENCE

Frontend Web Developer — Xcite by Alghanim Electronics

E-Commerce | Kuwait | October 2019 – Present

- Developed and implemented multiple frontend UI projects aligned with business objectives and user experience requirements.
- Built and maintained brand storefront pages for major supplier companies supporting product visibility and sales.
- Developed and maintained daily CMS campaign pages for marketing initiatives and promotional activities.
- Created a reusable library of UI blocks and components to improve consistency and accelerate future development.
- Translated design mockups into responsive interfaces optimized for desktop, tablet, and mobile devices.
- Collaborated with team members to update and refine mobile app mockups using Adobe XD.
- Continuously expanded frontend expertise in modern JavaScript, AJAX, ReactJS, Tailwind CSS, and Next.js.

UI Developer — Mawaqaa, National Web Solutions Company

Software House | Kuwait | November 2018 – May 2019

- Converted design mockups into fully interactive websites and web apps using HTML, CSS, Bootstrap, JavaScript, and jQuery.
- Maintained existing projects and resolved design, layout, and cross-browser compatibility issues.
- Collaborated with backend developers to ensure proper frontend integration and functionality.
- Ensured consistent user experiences across different browsers and screen sizes.
- Further developed expertise in JavaScript, CSS, and SASS.

UI Developer — Freelance (Self-Employed)

Egypt | March 2018 – October 2018

- Built responsive web pages for multiple clients using HTML, CSS, and jQuery.
- Resolved responsive design issues to ensure a consistent experience across desktop and mobile devices.
- Strengthened web design and frontend development skills through hands-on client projects.

SELECTED PROJECTS

E-Commerce Web Application

Currently in Development | React, Context API, TanStack Query, JavaScript, Tailwind CSS, Express.js, RESTful API

- Building a responsive e-commerce web application using React and Tailwind CSS.
- Developing reusable UI components and integrating the frontend with a RESTful backend API.
- Implementing a homepage, product browsing, categories, shopping cart, checkout, and responsive layouts.

SaaS E-Commerce Platform

Currently in Development | Next.js, React, JavaScript, Tailwind CSS, Supabase, PostgreSQL

- Currently developing a multi-tenant SaaS platform that enables business owners to create and manage their own online storefronts.
- Building a responsive storefront using Next.js, React, and Tailwind CSS.
- Integrating Supabase for authentication, database management, and data access.
- Developing reusable UI components to maintain consistency across the platform and improve development efficiency.
