

MOHAMMAD NASSER

Frontend Web Developer

Kuwait City, Kuwait • +965 50524199 • eng_mnmf@hotmail.com

Portfolio • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Experienced in building and maintaining responsive, high-quality e-commerce websites, with a strong focus on translating design mockups into pixel-perfect, mobile-first interfaces and developing reusable UI components. Skilled in integrating frontend applications with RESTful APIs developed using Node.js and Express.js, and collaborating with design and development teams to deliver scalable, user-focused web experiences.

TECHNICAL SKILLS

Languages & Styling: HTML5, CSS3 / SCSS, JavaScript (ES6)

Frameworks & Libraries: ReactJS, Next.js, Tailwind CSS, Bootstrap, jQuery, Context API, TanStack Query

API & Data: RESTful APIs, Fetch API, Axios, JSON

Tools & Version Control: Git / GitHub, npm, Chrome DevTools

Design & Practices: Responsive Web Design, Mobile-First Development, Cross-Browser Testing, Figma, Adobe XD

Backend Basics: Node.js, Express.js, RESTful API Development

EXPERIENCE

Frontend Web Developer — Xcite by Alghanim Electronics

E-Commerce | Kuwait | October 2019 – Present

- Developed and maintained multiple frontend UI projects aligned with business objectives and user experience requirements.
- Built and maintained brand storefront pages for major supplier companies supporting product visibility and sales.
- Developed and maintained daily CMS campaign pages for marketing initiatives and promotional activities.
- Created a reusable library of UI blocks and components to improve consistency and accelerate future development.
- Translated design mockups into responsive interfaces optimized for desktop, tablet, and mobile devices.
- Collaborated with team members to update and refine mobile app mockups using Adobe XD.
- Applied modern frontend technologies including JavaScript, AJAX, ReactJS, Tailwind CSS, and Next.js across ongoing development and improvement initiatives.

UI Developer — Mawaqaa, National Web Solutions Company

Software House | Kuwait | November 2018 – May 2019

- Converted design mockups into fully interactive websites and web apps using HTML, CSS, Bootstrap, JavaScript, and jQuery.
- Maintained existing projects and resolved design, layout, and cross-browser compatibility issues.
- Collaborated with backend developers to ensure proper frontend integration and functionality.
- Ensured consistent user experiences across different browsers and screen sizes.
- Further developed expertise in JavaScript, CSS, and SCSS.

UI Developer — Freelance (Self-Employed)

Egypt | March 2018 – October 2018

- Built responsive web pages for multiple clients using HTML, CSS, and jQuery.
- Resolved responsive design issues to ensure a consistent experience across desktop and mobile devices.
- Strengthened web design and frontend development skills through hands-on client projects.

SELECTED PROJECTS

E-Commerce Web Application

Completed | React, Vite, JavaScript, Tailwind CSS, React Router, Context API, TanStack Query, Axios, Node.js, Express.js

Live Demo • Frontend • Backend

- Built a responsive e-commerce web application using React, Vite and Tailwind CSS.
- Integrated the frontend with a RESTful Express.js backend API using Axios and TanStack Query.
- Implemented product browsing, categories, search, shopping cart, checkout flow, and responsive layouts.
- Developed reusable components and managed client-side state using Context API.

SaaS E-Commerce Platform

In Progress | Next.js, React, JavaScript, Tailwind CSS, Supabase, PostgreSQL

- Developing a SaaS-based e-commerce platform focused on simplifying online store management for small businesses.
- Building the storefront and management interface using Next.js, React, and Tailwind CSS.
- Exploring Supabase for authentication and PostgreSQL-based data management.
